Edmunds Elementary School

New School Building
Final plans
March 27, 2012
Teachers have had to create dividers between classrooms with storage cabinets and other available apparatus.

An existing visual barrier for one classroom.
Core of school consists of spiral ramping which does not provide for privacy and allows noise to travel throughout the building
Edmunds Elementary School Replacement

1. EAST ELEVATION (MAIN ENTRY)
   SCALE: 1/8" = 1'-0"

2. SOUTH ELEVATION
   SCALE: 1/8" = 1'-0"
